Agenda :

1. Functional Interfaces
2. lambdas
3. Streams

Functional Interfaces → SAM
                           ↓
Any interface having a single Abstract Method.

Runnable → run ( )
Callable → call ( )
Comparator → compare ( )
Comparable → compareTo ( )

Lambdas : cleaner way of creating objects
            of functional interfaces .

( ) ———→ { } ;
 ↓   ↓
arguments of   body of fnc

Streams :

↳ flow of something

Collections
list
set
Queue

filter

Some processing.

Collections

student list . Stream ( )
